

# Industry residency at the University of Edinburgh

Co-location opportunities are available (either via a lease, desk licence or hot-desk membership) throughout the city and across our campus.

This includes space at the Data Driven Innovation Initiative's hubs:

## [Bayes Centre](#)

47 Potterrow, Edinburgh  
EH8 9BT

*Specialist sectors: Data science and AI, Robotics and Autonomous Systems, Space and Satellites*

## [Usher Institute](#)

Usher Building  
5-7 Little France Road,  
Edinburgh BioQuarter - Gate 3  
Edinburgh EH16 4UX

*Specialist sectors: Health and Social Care*

## [Easter Bush Agritech Hub](#)

Easter Bush Campus, Roslin  
EH25 9RG

*Specialist sectors: Agritech*

## [Edinburgh Futures Institute](#)

1 Lauriston Place, Edinburgh  
EH3 9EF

*Specialist sectors: Financial Services, Public Sector, Tourism and Festivals, Creative Industries*

## [Edinburgh International Data Facility, Powered by EPCC](#)

EPCC at the Bayes Centre, 47  
Potterrow, Edinburgh EH8 9BT

## [National Robotarium](#)

Boundary Rd N, Third Gait,  
Edinburgh EH14 4AS

The University of Edinburgh also partners with Heriot-Watt University for further co-location opportunities.

*Specialist sectors: Robotics and autonomous systems*

Bespoke and sector-specific membership packages are available, either by application or through existing business development contacts.

Residency in a host hub provides access to:

- a multi-sector network and community of data-driven innovators
- collaborations supported by a cross-sector team of business development experts
- connections to academic and research staff, and student communities
- a series of events and networking opportunities across all hubs
- shared facilities such as wifi, kitchen areas, and meeting spaces
- access to bookable meeting room/s
- access to bookable large-sized lecture and conference facilities
- specialist laboratory workstations, including access to tissue culture rooms, cold rooms,

dark rooms and changing facilities are available on our Easter Bush campus, located within the Roslin Innovation Centre – more details are available upon application.

- Discounted access to the Edinburgh International Data Facility is available. This facility provides helpdesk, compute and data services specifically designed for data science and artificial intelligence.
- Data and processing can be performed in a fully private, virtual environment. Contact: [eidf@epcc.ed.ac.uk](mailto:eidf@epcc.ed.ac.uk) and see details at [edinburgh-international-data-facility.ed.ac.uk](http://edinburgh-international-data-facility.ed.ac.uk)

**To find out more about co-locating with us, email [ddi.co-location@ed.ac.uk](mailto:ddi.co-location@ed.ac.uk)**
